

So, How Long Has It Been Since Your Association Held an *On Mission Celebration?* That Long? Here's how you can change that!

We are now scheduling OMCs for 2006 and beyond. OMC's are a great way to strengthen your associational missions awareness and strategy. Why not begin in 2006? Associational Directors of Missions are familiar with the success achieved from implementing one of these Classic Formats:

**The One Day
The Two Day
The Three Day
The Four Day**

Here's a fresh new idea:

Over the years some ADOM's have said, "The classic OMC formats have worked really well, however, the classic formats are so intense in both human and financial resources we can only plan on having them every five years or so. We need an associational OMC type event between our classic OMC's that:

**Could be integrated in an existing association event
is also Great Commission focused
and is affordable."**

We are listening to you!

Have you thought about having an OMC as part of your annual associational meeting? No, not after your annual meeting. How about during your associational meeting without interruption of your annual meeting purpose?

Integrating an OMC into associational annual meetings is growing in interest. It allows an association to conduct business while injecting testimonies, devotions, and challenges from state, International, and North American missionaries, and other mission awareness special events.

If you are interested in exploring possibilities for an OMC during your annual meeting or any other time, contact us today at onmissionscelebration@namb.net or call Kenny Rains at 1 800 749-7479, ext. 6349 or e-mail Kenny at krains@namb.net.
